APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of a portion of the waters of an underground source as heretofore granted under Permit 18867, Certificate 6051 is issued subject to the terms and conditions imposed in said Permit 18867, Certificate 6051 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 18867, Certificate 6051 and 57247 shall not exceed 1016.0 acre-feet per year.

The total combined duty of water under Permits 57247 and 18867, Certificate 6051 and any waters of the Walker River Decree and any storage water appurtenant to these lands shall not exceed 1016.0 acre-feet per year.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(CONTINUED ON PAGE 2)

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed

2.55 cubic feet per second and not to exceed a yearly duty of

4.0 acre feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before February 24, 1996

Proof of completion of work shall be filed before March 24, 1996

Application of water to beneficial use shall be made on or before February 24, 1998

Proof of the application of water to beneficial use shall be filed on or before March 24, 1998

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed JUN 25 1996

Proof of beneficial use filed APR 10 1998

Cultural map filed

Certificate No. 14966 Issued JUL 13 1998

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.
State Engineer of Nevada, have hereunto set my hand and the seal of my
office, this 24th day of February

A.D. 1995

[Signature]
State Engineer

(PERMIT TERMS CONTINUED)

The issuance of this permit requires that a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion from the well under Permit 18867, Certificate 6051 and accurate measurements must be kept of the water placed to beneficial use. The totalizing meter must be installed at this location at the time of completion of the well drilled under Permit 57247.
